MICHA
DEN HEIJER

ABOUT ME

Hey, I'm Micha den Heijer. I'm a first year Econometrics and Operations Research student at the Vrije Universiteit Amsterdam. Here I'm learning a lot, and I'm really exited about using everything I learned in real life.

I've always been intrested in programming and software development. I've created some Open Source Software myself and this has helped me learn a lot about software development.

More information about me can be found at my personal website (michadenheijer.com).

WORK EXPERIENCE

SEPTEMBER 2018 / JANUARY 2020

Software Developer / CISSTM

Nieuw-Vennep

With a group of a few other students we participated in a CanSat competition. The goal of this competition is to build a small satellite (the size of a regular soda can). In these two years we've build a small satellite that can triangulate an small object.

Our source code is actually available on GitHub.

AUGUST 2019 / JULY 2020

Blogger / Prgrmmr

I've build my own website that is about programming and technology. Most of this information is already available in English, but it wasn't available in my native language (Dutch), so I decided to help Dutch people get into technology and programming.

EDUCATION

SEPTEMBER 2014 - JUNE 2020

Pre-university education
/HERBERT VISSERS COLLEGE

I'll graduate from the Herbert Vissers College at the Gymnasium level this June. Gymnasium is a specific type of Dutch secondary education, comparable to British grammar schools or American college-prepatory schools.

🎓 Graduated

SEPTEMBER 2020 - CURRENT

Econometrics and Operations Research
/VRIJE UNIVERSITEIT AMSTERDAM

I'm currently a first year Econometrics and Operations Research at the Vrije Universiteit Amsterdam. I'm learning a lot about statistical and analytical models, and how to apply those models in the real world.

LANGUAGES

English
Native or bilingual

Dutch
Native or bilingual

ADDITIONAL ACHIEVEMENTS

SEPTEMBER 2014 - JUNE 2019

C1 Advanced
/CAMBRIDGE ASSESSMENT
ENGLISH

I've completed a special program that teaches its participants to speak, read and write English just as well as native English speakers.

🎓 Graduated
